STRIKER LED DRIVING LIGHTS

Lightforce is excited to announce its revolutionary Australian designed, engineered and manufactured Striker® LED Driving Lights.

Their stylish rectangular form factor delivers a cool look on any 4X4, SUV or utility, and they pack a punch with great all-round performance of 1 lux at 754 metres.

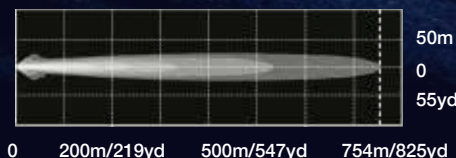

The Striker® LED includes all the iconic features common to other Lightforce LED Driving Lights including a solid IP68 & IP69k rating and reduced radio interference technology.

Each Striker® LED twin pack will include a DIY Installation Kit with a complete wiring harness, plug-and-play adaptors for your headlight's high beam, a dashboard switch and all the consumables you need. For the first time on a driving harness, all wires are individually labelled.

Accessories include a range of modular filters for various driving conditions, mounting brackets and security bolts. Also available in a single pack.

PHOTOMETRIC BEAM DATA
A pair of Striker LEDs with Spot Filter.
Beam Distance 1 LUX at 754m.

Photometric data is for one pair of lights. National Association of Testing Authorities Accredited, Australia 2018. Photometric testing performed by Photometric Solutions International Pty Ltd.
